The recycling material collected from Nyngan households is manually sorted in Gilgandra by Carlginda Enterprises.

If non-recyclables like those listed in red are placed in the blue bin, it contaminates the recyclables.

Our contamination rate has increased dramatically and is not only inconvenient for the recycling centre but also costs Council, thus ratepayers, to have the recycling processed.

Keep all
items empty,
dry and loose
to help our
recycling
team.

Please do the
right thing.
